Spring/Summer 2026

This year brings us near the 50th Anniversary of Stormtech Performance Apparel's operations in North America. From humble beginnings in 1977 to an internationally recognized outdoor apparel brand with worldwide distribution, we've remained committed to creating innovative apparel and gear people genuinely love to wear.

In an industry dominated by fast fashion, Stormtech offers a performance-driven quality product alternative that is built to last and backed by a 5 year guarantee. Along with our passion for product research and development, we are also committed to environmental stewardship and employ sustainable practices that lessen our impact on the natural environment and extend the life of every product we make.

Our Spring/Summer 2026 collection features a refreshing new take on classic outdoor apparel which has been updated and reimaged for the evolving needs of our customers. We hope you will enjoy these new styles as much as we enjoyed creating them, and thanks for your ongoing support.

Blake Annable,
Chairman and Founder

It's an exciting moment to be leading Stormtech, and I'm energized by the dedication, creativity, and drive that define our team and global partners. Stormtech has always stood for purposeful design, reliable performance, and doing things the right way - that spirit continues to guide us. Our new Spring assortment reflects this commitment, delivering thoughtful, high-performing products that earn the trust of our customers and partners.

Looking ahead, we're embracing a bold vision for Stormtech's future. One that elevates the customer experience, strengthens the connections with our distributors and partners, and unlocks new possibilities for innovation and growth. Together, we're shaping the next chapter of an enduring brand built for adventure.

Fabric Technologies

With a heritage of over 45 years outfitting adventurers for extreme weather and conditions, innovation is at the core of Stormtech's culture and values. Our durable, functional, contemporary clothing is built using advanced fabric technologies, along with smart sourcing and manufacturing.

Since 1983, all Stormtech outerwear fabrics have been treated with a durable water-repellent finish and a protective waterproof coating. The DWR helps water bead off the surface, while the separate 600–1000mm coating on the backside of the fabric provides our baseline level of water resistance.

Introduced in 1988 to increase the waterproof rating on outdoor garments while at the same time allowing heat and water vapour to escape. The technology appears in all 2, 2.5 and 3 layer outerwear fabrics.

Introduced in 1992, the engineered yarns draw sweat away from your skin and push it to the surface of the fabric, helping regulate body temperature during active use.

Introduced in 2023, this light weight/high loft technology provided the impetus for developing lighter weight, high-loft thermal shells that retained their thermal properties in cold and wet conditions with minimal bulk.

This technology was developed to control odor and extend the life of the garment by minimizing the need for frequent washing. The treatment inhibits the growth of odor-causing bacteria over the life of the garment.

H2XTREME®

Ultimate Storm Protection

Designed to keep you dry from both rain and perspiration, H2XTREME® uses a waterproof membrane to block water and wind, while releasing internal moisture vapour to keep you warm and comfortable.

WATERPROOF

Keeps outside moisture from penetrating the fabric. The waterproof rating is typically expressed in milliliters (1,000mm to 10,000mm) based on water pressure tolerance over a 24-hour period. Generally, the higher the rating, the higher the waterproof protection.

BREATHABLE

The movement of air from the inside out of the fabric to the other to keep the wearer comfortable. The breathability rating is typically expressed in a gram measurement of how much vapor a square meter (G/M2) of fabric will allow to pass in a 24-hour period (typically, 1,000G/M2 to 10,000G/M2) the higher the number, the more breathable the garment.

Basic [Level 1]	High [Level 2]	Extreme [Level 3]
600mm to 2,000mm 1,000g/m ² to 5,000g/m ²	2,000mm to 8,000mm 5,000g/m ² to 10,000g/m ²	8,000mm to 20,000mm + 15,000g/m ² +

H2X-DRY® Moisture Management

Next to Skin Climate Control

Stay cool and dry with H2X-DRY® moisture-wicking technology. Engineered yarns draw sweat away from your skin and push it to the surface of the fabric, helping regulate body temperature during active use.

Polygiene®

Odor Control

Polygiene Freshness-treated garments allow you to enjoy the confidence of fresh, all-day wear while minimizing the need for frequent washing. By extending the time between washes, these garments save you valuable time, reduce water consumption, and minimize waste.

Thermolex™ Synthetic Down

Lightweight Warmth Without the Bulk

High loft, high efficiency Thermolex™ synthetic down developed and tested by Stormtech is inserted into each quilted panel to a specific fill weight in order to achieve maximum warmth and softness. Engineered to be lightweight and highly efficient in all weather conditions.

Durable Water Repellent (DWR)

Water Resistant Finish

A protective coating applied to outer fabrics that helps rain and snow roll off instead of soaking in, keeping garments lighter, drier, and more breathable in inclement weather.

Corporate Social Responsibility Sustainability

At Stormtech, our mission is rooted in a commitment to people, planet, and product, a philosophy that guides everything we do. In an industry often dominated by fast fashion, we take a different path, crafting premium, durable apparel that seamlessly blends innovative performance with timeless style. Since 1977, we've outfitted adventurers and seekers for extreme conditions, and today, that same dedication fuels our journey to make a positive impact across every facet of our business.

PEOPLE

Our greatest asset is our people, and we are committed to supporting the well-being of our employees, partners, and communities. Worker health and safety remain a top priority across our global supply chain, with robust measures to ensure ethical practices and safe environments. Through initiatives like our Outfitting Futures, we empower youth in need, reinforcing our belief that businesses thrive when they uplift communities.

PLANET

Stormtech is proud to lead with sustainability at the core of our operations. In 2023, we achieved Climate Smart Certification, underscoring our commitment to reducing our carbon footprint. Additionally, our EcoVadis Committed status reflects our ongoing efforts to uphold environmental and social responsibility across our supply chain. With a high score on the Better Buying Purchasing Index (BBPI), we continue to foster ethical and collaborative supplier relationships.

PRODUCT

Every Stormtech product is built to last, combining premium quality materials, cutting-edge performance, and responsible design all backed with a 5-year warranty. We continue to prioritize the use of durable, high-quality sustainable materials, which not only enhance performance but also extend product lifespan, reducing waste and environmental impact. Our 5-year warranty and sustainable product care program are testaments to our belief that quality products should endure and leave a positive legacy.

Our Sustainability Journey

Stormtech's commitment to sustainability is reflected in our milestones and progressive initiatives aimed at reducing environmental impact and enhancing product responsibility.

Products Built to Last

Our ongoing commitment to design excellence and exceptional quality standards ensure that our garments withstand the test of time. We use premium materials and rigorous testing to guarantee durability and performance. All Stormtech products are also designed to endure and reduce environmental impact. Every item is crafted using premium materials that undergo rigorous quality assurance processes, including extensive lab testing, wear testing, and product safety evaluations. Backed by a five-year warranty, our products reflect our dedication to exceptional workmanship and durability. With our Sustainable Product Care program, we empower customers to maintain and extend the life of their products, combining quality and responsibility for a positive environmental impact.

PFC's and PFAS Elimination Initiative

Stormtech is a leader in eliminating harmful perfluoroalkyl and polyfluoroalkyl substances (PFAS) from its products, reflecting our commitment to environmental and human health. Since our first PFC styles were launched in 2018, we have transitioned in 2020 to 100% PFAS-eliminated waterproof and water-repellent materials with rigorous testing to ensure compliance with our PFAS Prohibition Policy. As we advance this initiative, we remain dedicated to working closely with our suppliers to deliver safe, sustainable, and high-performance products that meet the expectations of our customers.

Sustainability Assessment

Stormtech participates in independent third-party sustainability assessments to measure and improve our performance across our global value chain. In 2024, Stormtech earned an EcoVadis Bronze Medal, placing us in the top 35% of companies assessed during the 12-month period prior to the medal issue date. This rating reflects the strength of our sustainability management system and our ongoing commitment to transparency and responsible business practices. EcoVadis evaluates companies across four key categories: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement. We use these results to guide our continuous improvement efforts and to align our operations with recognized international standards. Our EcoVadis scorecard helps us identify priority areas for improvement and supports our goal of strengthening sustainability performance year over year.

Carbon Footprint

Stormtech continues to strengthen its climate reporting through annual CO₂e measurement and greenhouse gas (GHG) accounting. In 2024, Stormtech became Carbonhound Certified at the Standard level for Scope 1 and Scope 2 emissions under the GHG Protocol. Our inventory also includes the following Scope 3 categories: Upstream Transportation & Distribution, Employee Commuting, Downstream Transportation & Distribution, and Waste Generated in Operations. Carbonhound has confirmed that there are no material gaps in our Scope 1 and 2 data or in the Scope 3 categories we currently disclose. Additional Scope 3 categories with material data gaps will be incorporated into our 2025 GHG inventory, supporting a more complete understanding of our value-chain emissions and future reduction planning.

Responsible Sourcing

Stormtech's participation in the Better Buying Partnership Index (BBPI) emphasizes our dedication to transparency and collaboration with suppliers. We achieved an exceptional BBPI score of 91, demonstrating our commitment to responsible sourcing and ethical supply chain practices. This score reflects our dedication to building fair, transparent, and collaborative relationships with our suppliers, ensuring sustainability and respect for workers' rights are at the core of everything we do.

Supply Chain Transparency

Stormtech has taken an important step forward in responsible sourcing by mapping and publishing our key supplier facilities through Open Supply Hub, a platform used by leading global brands to improve supply chain visibility. Our interactive map is now live on our website, giving customers and partners a clear, verified view of where many of our products are made. This move reflects our commitment to transparency and supports growing expectations from regulators and clients across our industry. Using Open Supply Hub provides several benefits: standardized and accurate facility data, the ability to benchmark shared factories with other brands, and a strong foundation for compliance, ESG reporting, and future risk-mapping. Most importantly, it positions Stormtech as a brand willing to openly share its sourcing footprint while building a scalable framework as we work toward our 2025 goal of mapping our top tier 1, 2 and 3 factories.

ISO 9001:2015 Quality Certification

In 2025, Stormtech advanced its commitment to quality and operational excellence by beginning the process toward ISO 9001:2015 certification. Work began in September with a full gap analysis, followed by the development and completion of our Quality Management System (QMS) Manual, which now outlines the structure, processes, and standards guiding our organization. We are currently preparing for Stage 1 and Stage 2 audits, with the goal of achieving full ISO 9001:2015 certification by early 2026. This milestone will strengthen our internal systems, support continuous improvement, and reinforce the level of quality and consistency our customers expect from Stormtech.

R-PROM

Fashion For Every Forecast Spring 2026

The Spring 2026 collection introduces a fresh range of timeless styles that prioritize simplicity, durability, and long- term versatility. This season emphasizes classic silhouettes reimagined through soft yet durable fabrics, designed to retain their shape and appearance wash after wash. Our color direction is rooted in carefully selected industry- standard Pantones, striking the balance between broad customer appeal and focused seasonal relevance.

With a focus on timeless color, proven fabrics, and cross- category versatility, the Spring 2026 collection reinforces our commitment to delivering classic, durable, and relevant designs that meet the evolving needs of our customers.

Jenny Grad,
Sr Product Development Manager

Monterey

At the heart of the collection, the Monterey Family debuts with two polos and a 1/4 zip pullover. These pieces embody classic styling, modernized with a lightweight hand feel and a wide spectrum of core colors. Their clean, versatile design ensures they stand the test of time, offering a dependable foundation for both professional and casual wardrobes.

Monterey 1/4 Zip Pullover

FPL-SM | FPL-SW

The Monterey 1/4 Zip Pullover is designed for optimal performance, featuring H2X-DRY® fabric that wicks moisture away from the skin to help regulate body temperature during high-exertion activities. This pullover equipped with a semi-auto locking zipper, offers both comfort and flexibility as the perfect base layer for a multi-layer system. With a UPF Rating of 40+, it provides excellent protection from the sun's harmful rays, making it an essential piece for outdoor activities.

Monterey S/S Polo

The Monterey S/S Polo combines simplicity with performance in a lightweight, functional design. Crafted from mechanical stretch and snag-resistant fabric, it ensures comfort and flexibility for everyday wear. The anti-curl collar with collar stays maintains a sharp, polished look, while the UPF 40+ rating offers sun protection when you're out and about. For a casual, yet refined style, this polo is a practical choice for daily wear, offering quality with and long-lasting durability.

Monterey Two-Tone

S/S Polo PSX-9M | PSX-9W

Designed for performance and visual impact, this technical polo features H2X-DRY® Moisture Management to keep you dry and comfortable all day long. Crafted with mechanical stretch for unrestricted movement and snag resistant fabric for lasting durability, it's built to perform under pressure. Its bold 2-tone design—highlighted across the upper chest and shoulders—delivers a sharp visual statement that stands out from the crowd.

Volante

The Volante family was designed for movement — refined, lightweight pieces that balance comfort and technical performance. Each style combines GRS-Certified Recycled and virgin Polyester with Spandex for stretch, structure, and shape retention. Enhanced with H2X-DRY® Moisture Management and Polygiene® Freshness technologies, the collection delivers breathable, quick-drying comfort that lasts. From the streamlined ¼ Zip Pullover and clean-cut Polo to the versatile Short and Long Sleeve Tees, Volante is built to move with you.

Volante H2X-DRY® S/S Polo PSX-5M | PSX-5W

The Volante H2X-DRY® Polo features an ultra-soft touch 5-ounce single jersey fabric made with an equal blend of GRS-Certified Recycled Polyester and Polyester plus Spandex for optimal stretch and shape retention. H2X-DRY® moisture management technology draws moisture away from the skin, helping you to maintain optimal body comfort. UPF Rating of 40+ protects the skin from the sun's rays.

r-prom

Volante H2X-DRY® Quarter Zip Pullover

FPL-2M | FPL-2W

The Volante H2X-DRY® 1/4 Zip Pullover features an ultra-soft touch 5-ounce single jersey fabric made with an equal blend of GRS-Certified Polyester and Polyester with Spandex for added stretch and recovery. H2X-DRY® Moisture Management technology draws moisture away from the skin, helping you to maintain optimal body comfort. Self-fabric collar for maximum comfort. UPF Rating of 40+ protects the skin from the sun's rays.

Montebello

The Montebello family was created to deliver effortless comfort with a modern, adaptable feel. Each piece blends Certified Cotton with GRS-Certified Recycled Polyester for natural softness, structure, and H2X-DRY® Moisture Management control. Designed for everyday wear, the series combines relaxed silhouettes, easy movement, and durability that lasts. From the versatile Pullover Hoody to the Performance Tees, Montebello is built for comfort that carries through every season.

Montebello Pullover HoodyCPF-3 | CPF-3W

The Montebello Pullover Hoody is the perfect blend of comfort and sustainability. Made from Certified Cotton for superior softness with durable GRS-Certified Recycled Polyester to help maintain shape and H2X-DRY® Moisture Management will transport moisture away from the skin. Hem side slits and taped neck seam provide extra comfort and durability. UPF

Rating 50+ protects the skin from the sun's rays.

Montebello Performance S/S Tees

CPF-1 | CPF-1W

The Montebello Performance Short Sleeve Tee combines Certified Cotton for superior softness with durable GRS-Certified Recycled Polyester to help maintain shape and H2X-DRY® will transport moisture away from the skin. UPF Rating 50+ protects the skin from the sun's rays.

R-Prom

Stockton

Building on our continued commitment to cotton-rich styles, we expand into fleece with the Stockton Crew Neck and Hoody. Crafted from the softest cotton/polyester blend in our line to date, these silhouettes combine everyday comfort with long-lasting durability, elevating essential fleece to the core of Stormtech's offering.

Stockton Fleece Pullover Hoody

FPL-7M | FPL-7W

The Stockton Fleece Pullover Hoody is a basic layering favorite. Kanga-pockets and a drawcord adjustable hood provides practical protection from wind and crisp weather conditions. The rib knit construction at the hem and cuffs delivers enhanced durability while providing comfort effortlessly. Made from Certified Cotton for superior softness with GRS-Certified Recycled Polyester fleece to help maintain shape. UPF rating of 50+ protects the skin from the sun's rays.

Stockton Fleece Crew Neck

FPL-6M | FPL-6W

The efficient simplicity of the Stockton Fleece Crew Neck makes it a versatile style contender at work or play. Featuring hardwearing, cotton-rich performance fleece, the Stockton Fleece Crew allows for easy movement, and maintains a smooth silhouette in any position. An ideal solution for everyday wear, the ribbed hem band and cuffs provide ultimate comfort and durability.

Stockton S/S Tee

TSX-6M | TSX-6W

The Stockton Short Sleeve Tee was built to feel like your favorite cotton tee but with built-in resilience. Using 60% Certified Cotton gives us the softness and natural hand feel we love, while blending in 40% Polyester ensures your favorite tee keeps its shape and performs better over time. The rib knit collar and taped neck seam were chosen for durability and comfort — details that make a big difference in how a tee holds up after repeated wear and wash. With UPF 50+ protection built in, the Stockton Tee is designed not just for softness but for everyday reliability in all conditions.

R-Prom

Monashee

The Monashee family combines timeless comfort with thoughtful construction. Each piece blends Certified Cotton and GRS-Certified Recycled Polyester for softness, structure, and lasting shape. From the dependable Crew and Pullover Hoody to the versatile Full Zip, refined Henley, and elevated Fleece Shacket, every style reflects clean design, subtle detailing, and everyday durability — essentials built to last.

Monashee Fleece Crew Neck

TWX-1 | TWX-1W

The efficient simplicity of the Monashee Fleece Crew Neck makes it a versatile style contender at work or play. Raglan sleeves eliminate the shoulder seam, delivering unrestricted movement and a feel good fit. The 1x1 rib crew neck collar, cuffs, and hem ensure outstanding durability with a crew neck you can enjoy for years to come.

Monashee Fleece Full Zip Hoody

TWX-2 | TWX-2W

Go with the flow in the casual comfort of the Monashee Fleece Full Zip Hoody. Cradle your hands in the warmth of the kanga pockets, draw in the adjustable hood on chilly days, shut out brisk weather with a quick pull of the full front zipper. The rib hem and cuffs complete the fashion-forward look of this hoody. Made from Certified Cotton for superior and with durable GRS-Certified Recycled Polyester fleece to help maintain shape. UPF rating of 50+ protects the skin from the sun's rays.

Monashee Fleece Pullover Hoody

TWX-3 | TWX-3W

The Monashee Pullover Hoody is a basic wardrobe favorite. Hand pockets and a drawcord hood provides practical protection from wind and crisp weather conditions. The rib knit construction at the hem and cuffs delivers enhanced durability while providing lounging comfort that exudes an effortlessly trendy edge. Made from Certified Cotton for superior softness with durable GRS-Certified Recycled Polyester fleece to help maintain shape. UPF rating of 50+ protects the skin from the sun's rays.

Treeline

We created the Treeline family as the foundation of our performance layering system that delivers warmth, breathability, and a clean, timeless design. Both the Jacket and ¼ Zip are built from the same brushed-back GRS-Certified Recycled Polyester with Spandex fabric, designed to move naturally with the body and enhanced with H2X-DRY® technology to wick moisture and regulate temperature.

Treeline Performance Jacket HTZ-3 | HTZ-3W

Streamlined silhouette base layer with H2X-DRY® moisture management technology and Recycled Polyester and Spandex that wicks moisture away from the skin. The Treeline Performance Jacket features a brushed-back fleece which offers superior thermal properties, while allowing for excellent breathability. A low-profile chin saver provides extra next-to-skin comfort.

R-Prom

Treeline Performance 1/4 Zip Pullover

HTZ-2 | HTZ-2W

Streamlined silhouette base layer with H2X-DRY® moisture management technology and 44% GRS-Certified Recycled Polyester that wicks moisture away from the skin. The Treeline Performance 1/4 Zip Pullover features a brushed back fleece which offers superior thermal properties, while allowing for excellent breathability. The chin saver provides extra next to skin comfort.

Antares

We designed the Antares Performance Hoody to deliver warmth without bulk in a sleek, everyday silhouette. The bonded jersey knit and soft sherpa fleece create next-level comfort with a polished look that transitions easily from casual wear to active use. With added features like an adjustable hood, secure zippered pockets, and H2X-DRY® Moisture Management performance, it's built for cool-weather layering with year-round appeal.

Antares Performance Hoody

FPX-4M | FPX-4W

Stay comfortable and ready for anything with the Antares Performance Hoody. Crafted with premium GRS-Certified Recycled Polyester jersey outer layer bonded to sherpa fleece, it provides warmth that's perfect for cooler weather. The full coverage, easy-lock adjustable 3-piece hood offers enhanced protection against the elements, while zippered hand pockets keep your essentials secure. Whether you're exploring the city or heading out on a weekend adventure, this versatile piece blends casual style with dependable performance.

Avalante

The Avalante family was created to redefine what sweater fleece can be across a full range of silhouettes. Designed for people who move between the city and the outdoors, each piece in the series shares the same ultra-soft sweater knit fleece built from GRS-Certified Recycled Polyester, offering comfort without compromise. From the dependable Full Zip Jacket and Vest to the adaptable $\frac{3}{4}$ Zip Pullover and Hoody, to the elevated Fleece Shacket, every design balances function and movement. Unified by clean lines, flatlock seams, and thoughtful construction, the Avalante family delivers timeless comfort engineered for the rhythm of everyday life.

r-prom

Avalante Full Zip Fleece Hoody

FHD-1 | FHD-1W

The Avalante Full Zip Fleece Hoody blends urban style with lasting cold-weather comfort. Designed with raglan sleeves for unrestricted movement, it's perfect for everyday wear. Zippered pockets keep your essentials secure while providing warmth

for your hands. The full-length front zipper with a low-profile chin saver offers extra protection against the elements. The full-coverage, easy-lock adjustable 3-piece hood ensures a snug fit to keep you warm when temperatures drop. Made from GRS-Certified Recycled Polyester fleece, this versatile piece delivers warmth you can feel good about—whether you're navigating city streets or enjoying a casual weekend outdoors.

Avalante 1/4 Zip Pullover

FHP-1 | FHP-1W

Get ready for action with the Avalante 1/4 Zip Pullover's full range of motion articulated shoulders. It's stylish yet practical with a secure zippered pocket and a 1/4 zip front with low-profile chin saver for easy adjustment to moody weather. Made from GRS-Certified Recycled Polyester.

Avalante Full Zip Fleece Jacket

The Avalante Full Zip Fleece Jacket offers long-lasting cold-weather comfort. The raglan sleeve design provides unrestricted movement and a great fit. Valuables are safely secured in zippered pockets, while also keeping hands warm and dry. Full front zipper with low-profile chin saver provides added protection from the elements as you venture forth with a clear conscience, knowing this fleece jacket has been created from GRS-Certified Recycled Polyester fleece.

R-Prom

Avalante Full Zip Fleece Vest

FHV-1 | FHV-1W

Built for optimal warmth and comfort indoors or out. This design affords versatility with well-placed zippers to protect belongings and a secure full front zipper. Hand pocket lined for warmth while low-profile chin saver provides next-to-skin protection. Made from GRS-Certified Recycled Polyester.

Avalante Fleece Shacket

SNF-1

The effortlessly stylish Avalante Fleece Shacket made from Recycled Polyester charms in all settings. Its on-trend detailing elevates its practical design features. Chest pocket flaps close with a snap, ensuring your items are secure and within easy reach. Hand warmer pockets, adjustable cuffs, and a centre front snap closure add to the functionality and comfort of this in-demand shirt. Our Recycled Polyester is certified by the Global Recycling Standard.

R-Prom

Sierra

New for Spring 2026, the Sierra Family delivers affordable outerwear staples in thermal and lightweight shell categories. Designed as versatile transitional pieces, the Sierra jackets and vests provide accessible price points without compromising on performance, making them an essential complement to Monterey knits and a natural fit for multi-season layering.

Sierra Thermal Vest TVX-5M | TVX-5W

Lightweight thermal efficiency. Engineered for high performance with reduced weight, the Sierra Thermal Vest offers lightweight warmth and windproof protection. Featuring Stormtech Thermal Shell™ insulation and a DWR water-repellent finish, this vest keeps you warm and dry while shielding you from the wind. The Thermal Shell™ Insulation ensures optimal core warmth, and the windproof outer shell adds an extra layer of protection against the elements. Perfect for layering, this vest is your go-to piece for warmth and performance in cold, unpredictable weather.

r-prom

Sierra Thermal Jacket

TRX-5M | TRX-5W

Lightweight thermal efficiency. Engineered for high performance with reduced weight, the Sierra Thermal Jacket is the essential layering solution for any outdoor adventure. Featuring Stormtech Thermal Shell™ insulation and a DWR water-repellent finish to keep you warm and dry in while mild wet weather. The full-length internal stormflap adds extra protection against the elements, while the quilted design ensures optimal heat retention without the bulk. Built with feather-free insulation, this jacket provides sustainable warmth, and the elasticized cuffs help lock in heat, ensuring you're ready for anything, no matter the weather.

Sierra Lightweight Shell

This packable lightweight shell is built to keep you at your best in breezy weather. A water-resistant outer shell provides reliable protection in mild wet weather, while the sleek design ensures maximum mobility and perfect fit. When not in use, it easily packs into its own pocket for convenient storage. This jacket is a perfect solution for mild weather conditions.

r-prom

Sierra Lightweight Vest

SVX-2M | SVX-2W

This packable lightweight vest is built to keep you at your best in mild weather. A water-resistant outer shell provides reliable protection in mild wet weather, while the sleek design ensures maximum mobility and perfect fit. When not in use, it easily packs into its own pocket for convenient storage. This jacket is a perfect solution for mild weather conditions.

R-PROM

Tundra

The Tundra Quilted Shacket was developed as a natural extension of the Tundra Thermal Jacket — carrying forward the same cold-weather function in a more casual, transitional silhouette. This piece brings a sense of casual ease into the Tundra family — a layering essential equally at home in town or outdoors, designed to bridge the gap between polished style and dependable warmth.

r-prom

R-PROM

Tundra Quilted Shacket

TRX-6M | TRX-6W

Cool-weather casual. The Tundra Quilted Shacket features low-profile thermal fill panels, snap closure and a water repellent finish fabric designed to keep you warm and dry. Both Men's and Women's styles feature a classic tailored collar with single welt hand pockets to keep contents secure and your hands warm and dry. The Tundra Quilted Shacket is built with hard-wearing GRS-Certified Recycled Nylon fabric.

Appalachian

We designed the Appalachian Thermal Softshell Jacket and Vest to provide flexible, versatile thermal efficiency for all season wear. Featuring a lightweight, high performance windproof outer shell quilted with Thermolex™ for warmth, and softshell panels for added contrast, protection, and mobility, these pieces are ready for any environment. The water repellent finish offers protection in damp conditions, while distinctive styling details differentiate the Men's and Women's designs: the Men's includes exposed hand pockets and a softshell panel across the hem, while the Women's features contoured seaming, chevron baffles, and hidden hand pockets for a sleek, refined look.

Appalachian Thermal Softshell VestTVX-2M | TVX-2W

Flexible, versatile thermal efficiency. The Appalachian Thermal Softshell Vest is ideally suited for all-season wearing with a lightweight quilted Thermolex™ body and 4-way stretch softshell panels. Durable water repellent finish fabric on the main body helps repel water in damp conditions. Brushed tricot internal stormflap and adjustable hem with drawcord lets you adjust for maximum comfort. The Appalachian Thermal Vest is built with GRS-Certified Polyester and polyester fabric with 10% Spandex to provide stretch mobility.

r-prom

Appalachian Thermal Softshell Jacket

TRX-3M | TRX-3W

Flexible, versatile thermal efficiency. The Appalachian Thermal Softshell Jacket is ideally suited for all-season wearing with a lightweight quilted Thermolex™ body and 4-way stretch softshell panels. Durable water repellent finish fabric on the main body helps repel water in damp conditions. Brushed tricot internal stormflap and adjustable hem with drawcord lets you adjust for maximum comfort. The Appalachian Thermal Jacket is built with GRS-Certified Recycled Polyester and Polyester fabric with 10% Spandex to provide stretch mobility.

Cascadia

We designed the Cascadia Jacket and Vest as the ultimate all-season layers, ideal for outdoor activities and transitional weather. We wanted a lightweight solution that offers warmth without the bulk, so we used Thermal Shell™ high-loft synthetic insulation for efficient, all-day comfort. With streamlined design details, hidden pockets, and flexible 4-way stretch side panels, these pieces deliver both functionality and a sleek, modern aesthetic—perfect for hiking, travel, or everyday wear.

R-PROM

Cascadia Thermal Jacket

TRX-2M | TRX-2W

The Cascadia Thermal Jacket represents a milestone in lightweight thermal technology. Featuring a Thermal Shell™ polyfill, this is the lightest weight all-season thermal jacket ever developed by Stormtech, suitable for both temperate and cold environments. Both outer shell and side panels are constructed with spandex to allow optimal stretch - providing unmatched flexibility and ease of movement.

Artimus

We built the Artimus shell to handle real weather without weighing you down. The 2.5-layer H2XTREME® waterproof/breathable fabric blocks wind and rain while staying light enough for everyday use. A YKK® AquaGuard® zipper and attached hood add reliable protection, while laser-cut mesh details and 360° venting keep air moving so the jacket stays comfortable when conditions shift. Made for urban days, trail days, and every wet, windy stretch in between.

R-Prom

Artimus Softshell

A shell that is resolute about providing maximum outdoor protection and designed with advanced technical features including 2.5 layer waterproof and breathable outer shell. The urban-styled Artimus Technical Shell shuts the rain and the wind out with its exclusive H2XTREME® waterproof/breathable technology, attached hood, and YKK® AquaGuard® center front zipper. Head-to-toe comfort with an ergonomic design that promotes unrestricted movement.

R-PROM

Vertex

We designed the Vertex Stormshell to handle any kind of condition. The goal was simple: complete weather protection without sacrificing movement. Our 3-layer H2XTREME® fabric gives us the waterproofness and breathability we need, while the mechanical stretch and articulated patterning allowed for a full range of motion. Every element — from the welded hood brim to the pit zips and YKK® AquaGuard® waterproof center front zipper — was considered to keep you comfortable, dry, and focused no matter what kind of weather was coming down. This jacket is built to perform.

R-PROM

Vertex Stormshell

Extreme weather protection with full coverage storm hood and YKK® AquaGuard® waterproof zipper. The Vertex Stormshell features 3-Layer H2XTREME® waterproof/breathable technology and an advanced articulation and ergonomic fit with mechanical stretch fabric, allowing for unrestricted movement. Pit zippers help regulate your core temperature, and an articulated adjustable hood with a welded brim provides a comfortable fit and sheds water away from your face. The Vertex Stormshell is built with regular and GRS-Certified Recycled Polyester.

Aquarius

Rounding out the season, the Aquarius Collection grows with the addition of two styles. Fully featured and ready for everyday adventure, these designs reflect Stormtech's commitment to providing thoughtful lifestyle solutions alongside apparel.

Aquarius 16 Cooler BagBCL-2

The weather-proof Aquarius 16 Cooler Bag is your go-anywhere companion, blending urban style with outdoor functionality. With plenty of space to keep your drinks ice cold, this sleek cooler bag features a removable adjustable shoulder strap for a customizable fit and an easy-to-clean food-safe interior. Its generous storage compartments keep your valuables safe, while the mesh back pockets are perfect for stashing keys, accessories, or that extra snack. Whether you're strolling through the city or heading out for a spontaneous adventure, the Aquarius 16 Cooler Bag is designed to keep your essentials chilled and your hands free.

Aquarius 24 Cooler Backpack

BOL-1

The Aquarius 24 Cooler Backpack combines urban style with unbeatable practicality. Featuring a classic design, this durable cooler backpack offers an easy-to-clean, food-safe interior. The spacious main compartment fits your favorite drinks, while the front pocket is perfect for your personal accessories. Adjust the ergonomic shoulder straps for a perfect fit and enjoy the comfort of the padded back panel as you head out on your next spontaneous adventure. Whether you're commuting or exploring, this backpack is designed to keep up with your active lifestyle.

R-PROM

Aquarius Backpack

BPX-8

Practical functionality expressed through simple, adaptable design. The Aquarius Backpack places emphasis on smart simplicity with hidden features and a spacious main compartment for larger essentials. A padded laptop sleeve keeps your device protected from daily bumps and scratches, while its clean, urban design ensures effortless style on the go. A dynamic solution for digital age demands.

Aquarius Computer Pack

BPX-9

The Aquarius Computer Pack is designed for effortless organization and reliable protection for your laptop and other valuables. It features ergonomic, adjustable shoulder and sternum straps, along with a padded airflow back panel to keep you cool and comfortable. Keeping functionality at the forefront without complicating the design. Dual side mesh pockets provide easy access to hydration on the go.

Atlantis

The Atlantis Waterproof Gear Bag is our top selling bag. Made from durable laminate material built for maximum durability and versatility, this waterproof bag is ready to be roughed around. Whether in-flight for travel or as your daily gear bag, it will get the job done.

Atlantis Waterproof Gear Bag (L)GBW-1L

Constructed for maximum durability and versatility, in both outdoor and industrial environments, Atlantis waterproof gear bags are designed to weigh less and keep your contents safe and dry.

r-prom

Nomad

The Nomad waterproof duffle collection is built for versatile performance with high style aesthetics. Made from 100% waterproof fabric with a soft suede finish and a reinforced nylon base for maximum durability. The convertible backpack and duffle models feature padded shoulder straps that convert into to a carrying handle when necessary. Strategically placed side handles and gear loops allow you to grab hold of these duffels from any position for quick access when you need it.

Nomad Duffel

The Nomad Duffel 85 is crafted from reinforced 100% waterproof fabric and heavy duty nylon webbing, offering durability without added bulk. This combination duffel and backpack features four-point carry handles for versatile and ergonomic carry options, making it easy to adapt to any journey. Lightweight and highly functional, it keeps you organized whether you're navigating city streets or heading off the beaten path.

Nomad Toiletry Bag

APM-3

The Nomad Toiletry Bag is crafted from reinforced 100% waterproof fabric and heavy-duty nylon webbing. A miniature version of Nomad gear bag features dual side carry handles make it easy to adapt to any journey. Lightweight and highly functional, it's a tough, travel-ready essential designed to perform wherever the road leads.

Your Vision, Our Expertise.

What makes Stormtech's custom-design solutions unique? It's more than just the products - It's the hands-on collaboration. With a dedicated team offering one-on-one support, customers receive expert guidance throughout the process. From concept sketches to the final product, the Stormtech team ensures your ideas are fully realized.

Create something unique to mark special milestones, corporate anniversaries, or holiday gifts. Whether you're looking for the best promotional jackets for businesses or one-of-a-kind branded bags and accessories, we make customization seamless.

Low Minimum Order Quantities

At the heart of Stormtech's custom offerings is a commitment to personalization and service. Customers can choose from a wide range of customization options. We offer custom-made production in most of our fabrics and products. Each customization is carefully designed and tested in accordance with strict quality control standards and backed by our 5-year warranty.

We offer two options within our Custom Design Program

Express Custom Design

Our Express Custom Design Program, featuring quicker turnaround times. This program focuses on top-selling Stormtech styles in stock fabric colours, with customizable details such as:

- PMS dyed accents; zippers, piping, stitching, webbing •
- Custom style details and unique branding elements
- Quickest lead times
- Custom modifications to meet your brand's specifications

Full Custom Design

Want a fresh take on an existing Stormtech design? We use our top-selling inline products as a starting point and customize from there, including:

- Colours with PMS matching available
- Custom details and trims
- Unique decoration and branding elements

r-prom

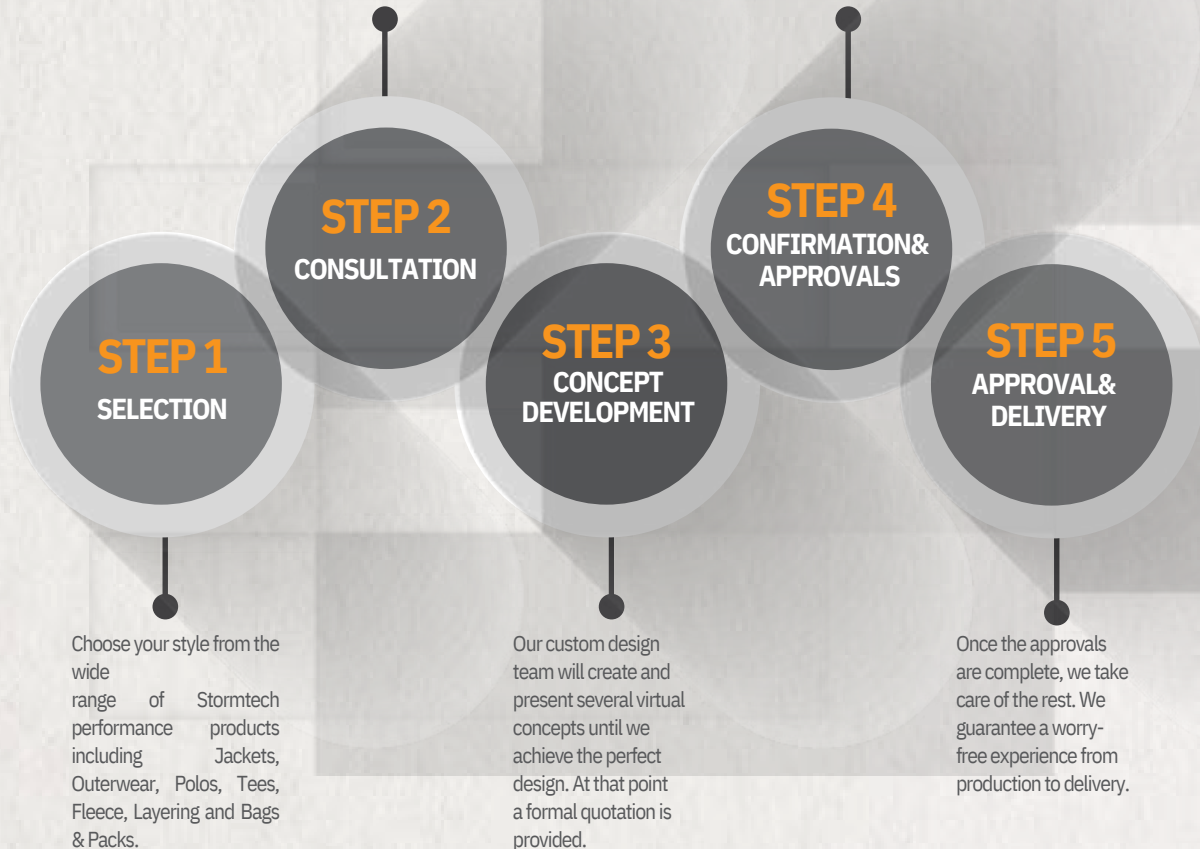

Customize Your Next Adventure

THE ONE-STOP SOLUTION

A dedicated member of the Stormtech Custom Design team will collaborate with you to review and discuss potential concepts to meet your requirements.

Upon receiving a confirmed order, photo and/or physical proofs created by Stormtech's custom design team will be produced and presented for customer approval.

DELIVERY

75-160 days

120-220 days

Contact our custom design specialists custom@stormtech.ca and bring your vision to life. Production delivery times and minimum quantities are based on customized Stormtech styles, fabrics and patterns.

In House Decoration Made Easy

At Stormtech, we understand that branded products are more than just merchandise; they're a powerful way to amplify your brand, foster loyalty, and spark meaningful connections. Branded products are an investment in your brand identity, increasing awareness and leaving lasting impressions. With Stormtech as your one-stop, full-service partner for branded apparel, bags, hats and accessories, we make the process easy. Let our in-house team of decoration specialists help you elevate your brand with precision and creativity.

✓ Step 1

Choose Your Product

Pick from premium outdoor apparel & gear, all backed by a 5-year warranty.

✓ Step 2

Place Your Order

Low minimums — only 12 units, any size curve.

✓ Step 3

Add Your Logo

Send us your artwork and tell us where you want your logo placed.

✓ Step 4

We Deliver

Decorated and shipped to your store in as little as 2 weeks.

Embroidery

Timeless and durable, embroidery uses high-density decorative stitching to create a textured, professional appearance. Thanks to state-of-the-art machinery and software, we can apply your logo to a variety of products, ensuring every stitch reflects the quality and integrity of your brand.

Laser Etched Patches

Add a premium touch to your products with faux suede or faux leather patches. Using precise laser etching, we create a high-end look ideal for bags, jackets, and any item where sophistication meets style. This technique is perfect for making a bold statement while maintaining a polished aesthetic.

Seamless Heat Transfer

Supacolor seamless heat transfers deliver vibrant, detailed designs that enhance any branded product. Designed for a variety of materials, they provide excellent results on even the most challenging fabrics, including heat-sensitive materials like polyester or PVC. These transfers apply at lower temperatures to prevent damage while maintaining brilliant colors, and they prevent dye migration on heavily dyed fabrics. Whether they're applied on a soft-shell

jackets or a waterproof bag, Supacolor transfers offer superior adhesion and clarity for a sharp, professional look.
